SOURCE

One Storch was again observed at the CHEB-OBERSCHOEN (N 51/P 37) airfield at noon on 9 September 1949. At the same time one fighter, probably an Me-109, was parked farther to the east at the field. Two Me-109s, including the mentioned plane, took off from the airfield at 2:06 p.m. and headed east. Two aircraft appeared over the airfield at 2:25 p.m. They circled the airfield for thirteen minutes and then landed. Upon signs from the pilots, two tank trucks pulled up to the grounded planes.

25X1A Comment: The occupation of the CHEB-OBERSCHOEN airfield has not changed since 8 September 1949. The airfield is apparently by three to five Me-109s and by one Fieseler Storch. occupied
